Expansion and investment at Crowther & Sons

In response to a growing national and regional client base, master upholsterer Crowther & Sons has invested in additional workshop and showroom space at the company's Nettleham HQ.

"We have secured an extra 1200 square feet of floor area to give our master upholsterers and cabinet maker more workshop space and to create an additional 600 square feet of racking for storage and to allow us to expand the showroom," comments founder and Managing Director Edward Crowther. "We are thrilled with how the business is growing and the residential and commercial client base we are developing within the county and throughout the UK," he added.

The Company has recently been accepted onto the prestigious 'House & Garden The List' and Crowther & Sons is the only upholsterer in the East Midlands to achieve this. The prestigious international magazine has a strict criteria before a panel of experts assesses if a company can become part of this ultimate directory of the best designers, architects and other interior related services in the United Kingdom.

A new Crowther & Sons liveried van is now a regular sight on the county's roads as clients have items collected or delivered carefully by the Crowther & Sons team.

Crowther & Sons has a loyal customer base within Lincolnshire and also travels regularly to London and throughout the UK to visit clients and collect and deliver furniture. This recent re-upholstery of a 2 seater sofa was for a client in Kensington.

"The client was so delighted with the transformation that she has now asked us to re-upholster a 1930s sofa in a co-ordinating fabric and restore some 1950s chromed steel dining chairs. She couldn't find a similar quality of work in the London area," adds Edward.

New clients recently telephoned from Switzerland to commission Crowther & Sons to reupholster some family furniture. They are building a new home in the Swiss Alps and couldn't locate a suitable upholsterer in Switzerland so decided to coincide a family visit to the UK with a

visit to the Nettleham showroom to organise work to start on their 1950s retro sofa and chairs (shown below).
